

Green Cat Renewables

**CAD Technician**

Location: Edinburgh

**The Company**

Due to continuing expansion Green Cat Renewables now requires an experienced CAD Technician, who will have responsibility for delivering a variety of engineering drawings for wind power projects, to join the Engineering Team in Edinburgh.

Green Cat Renewables is a dynamic, innovative and growing company that provides the complete range of technical services required to deliver wind and hydro energy projects. You would be part of a team of over 40 Engineers and Environmental Consultants together with Legal Support, spread across three Scottish offices.

**The Role**

- Prepare a range of technical drawings, on software including AutoCAD and Powercivils
- Develop and maintain a technical knowledge of all the drawings and technical standards
- Manage workload of drawings

**The Candidate**

- At least 2 years experience of undertaking relevant engineering drawing.
- Excellent attention to detail
- Good organisational skills

To apply please write enclosing full CV and covering letter to [jobs@greencatrenewables.co.uk](mailto:jobs@greencatrenewables.co.uk) quoting Ref-: CAD TECHNICIAN- Edinburgh'. Closing date Friday 16<sup>th</sup> March 2012.
