

# Legal Renewables Limited

Legal Renewables Limited provides a bespoke legal service to the renewable energy sector in Scotland.

We act for land owners, commercial developers, self-developers and community projects providing legal advice in relation to onshore wind power projects and small scale hydro-electric projects including: -

- Land option and leases to secure land options
- Land Development legal diligence
- Planning – S75 Agreements and Restoration Bonds
- Bank funding for acquisition and development
- Joint venture arrangements for development
- Commercial contracts

Our close working relationship with the consultants at Green Cat Renewables allows us an insight into the industry which sets us apart as a legal firm.
