

Green Cat Renewables Job Advertisement – Project Manager

Location: Edinburgh (Stobo House, Midlothian Innovation Centre, Roslin)

The Company

Green Cat Renewables (GCR) is a dynamic, innovative company that provides the complete range of technical services required to deliver renewable energy projects. The team of over 50 Engineers and Environmental Consultants deliver projects on behalf of Clients from three offices in Edinburgh, Livingston and Biggar.

Through the Engineering Department the company provides Engineering Consultancy and Project Management services to clients developing renewable energy projects as well as projects in other non-renewable areas. This includes: civil and electrical design, procurement, project finance technical assistance, contract preparation, negotiation and management, site supervision, civil, mechanical and electrical inspections, and services relating to the construction of a project.

Green Cat Renewables now require a Project Manager to join the Engineering team in Edinburgh to manage the delivery of a range of renewable energy projects and to help continually develop the expanding client base.

The Role

- Management and ownership of a variety of renewable energy projects.
- Co-ordination of project team activities (internal & external) insuring key milestones are met.
- Manage the tendering/procurement processes for projects.
- Ensuring financial and technical targets are met in delivering projects.
- Effective management of, and reporting on, project risks.
- Facilitate negotiation of agreements and contracts.
- Management and supervision of contractors carrying out services and construction on projects.
- Liaise with external stakeholders (e.g. landowners, developers, community bodies, planning authorities, community relations, grid network operators).
- Liaise internally with project team and ensure all corporate policies and quality management systems are fully adhered to.

The Candidate

- Minimum 5 years demonstrable Project Management experience, leading projects and delivering project goals and objectives including;
 - Risk Management
 - Project and internal Budget Management
 - Contract Management
- Renewable energy project experience preferred but not required.
- Proactive, adaptable mind-set with a willingness to work independently or as part of a team.
- Excellent attention to detail.
- Excellent organisational skills.
- Strong written and oral communication skills.
- Willingness to travel within UK when required.
- Valid Driving License for use within UK.

To apply please send a full CV and covering letter to jobs@greencatrenewables.co.uk by the 5th April 2019.
