

Green Cat Renewables Job Advertisement – Project Manager

Location: Edinburgh (Stobo House, Midlothian Innovation Centre, Roslin)

The Company

Green Cat Renewables (GCR) is a dynamic, innovative company that provides the complete range of technical services required to deliver renewable energy projects. The team of over 50 Engineers and Environmental Consultants deliver projects on behalf of Clients from three offices in Edinburgh, Livingston and Biggar.

Through the Engineering Department the company provides Client's Engineer and Project Management services to clients developing renewable energy projects. This includes: civil and electrical design; procurement; project finance technical assistance; contract preparation, negotiation and management; site supervision; civil and electrical commissioning inspections; whole project management.

Green Cat Renewables now require a Project Manager to join the Engineering team in Edinburgh to manage the delivery of a range of renewable energy projects and to help continually develop the expanding client base.

The Role

- Management and responsibility for a variety of renewable energy projects.
- Co-ordination of project team activities (internal & external) ensuring key milestones are met.
- Preparation of documentation and management procurement processes.
- Ensuring financial and technical targets are met in delivering projects.
- Effective management of, and reporting on, project risks.
- Facilitate negotiation of agreements and contracts.
- Management and supervision of contractors carrying out services and construction on projects.
- Communication with external stakeholders (e.g. landowners, developers, community bodies, planning authorities, community relations, grid network operators).
- Internal communication with project team and ensure all corporate policies and quality management systems are fully adhered to.
- Business Development and Sales responsibilities.

The Candidate

- Extensive demonstrable Project Management experience, leading projects and delivering project goals and objectives including;
 - Risk Management
 - Project and internal Budget Management
 - Contract Management
- Knowledge and experience of the UK Renewable Industry.
- Proactive, adaptable mind-set with a willingness to work independently or as part of a team.
- Excellent organisational skills.
- Excellent written and oral communication skills.
- Willingness to travel within UK when required.
- Full UK driving licence.

To apply please send a full CV and covering letter to jobs@greencatrenewables.co.uk by the 6th March 2020.
