

Green Cat Renewables Job Advertisement – Senior / Principal Environmental Consultant

Location: Edinburgh

(Stobo House, Midlothian Innovation Centre, Roslin)

The Company

Green Cat Renewables (GCR) is a dynamic, innovative company that provides the complete range of technical services required to deliver renewable energy projects. The team of over 60 Engineers and Environmental Consultants deliver projects on behalf of Clients from three offices in Edinburgh, Livingston and Biggar. GCR also works closely with its two sister companies Green Cat Hydrogen based in the UK and Green Cat Renewables Canada based in Calgary.

With a growing portfolio of projects within onshore wind, solar, hydro, battery storage and hydrogen across the UK, we are currently recruiting experienced, enthusiastic and talented Environmental Consultants, with experience across technical disciplines including Hydrology, Noise, Cultural Heritage and LVIA to join the Environmental and Planning team, based in Edinburgh. The successful candidates will be charged with supporting the management and delivery of a variety of renewable energy projects, providing leadership and mentoring to junior staff, while developing our business across the UK.

The Role

- Managing the delivery of renewable energy projects through all stages of the development process from initial feasibility to co-ordination of EIA and submission of planning applications.
- Assist the management team with business development, engaging with existing GCR clients and the development of their own network
- Provide technical leadership on one or more environmental specialisms.
- Preparation and Management of written technical reports to support EIA delivery.
- Leading consultation with local authorities, communities and statutory consultees.
- Preparation of tender documents and fee proposals.

The Candidate

Essential

- Degree qualified in a relevant Environmental or Engineering discipline.
- 4+ Years' experience in the renewables sector.
- In Depth knowledge of the UK planning system and EIA.
- Exceptional understanding of key environmental and technical issues involved in the development of renewable energy projects.
- Proven track record of project management, ability to plan and deliver works to budget and programme deadlines.
- Strong technical competency in EIA, with strong problem solving, communication and technical report writing skills.
- Valid Driving Licence for use within UK.

Desirable

- Business Development experience
- Chartered Membership of a recognised professional institution (I.e. IEMA)

Benefits:

- Competitive salary
- Private Medical Healthcare

- 25 Days annual leave and 8 flexible bank holidays
- Cycle to work scheme
- Professional development opportunities and support.
- Professional fees paid for by the company.
- Company social events and team building days.
- On-site parking with EV charging points available to staff.
- Flexible working opportunities
